PRIVATE SECRETARY MYSORE

Bangalore

11-1-9

D4794

Dear Mr Madhava Rao

There is an exceedingly promising boy by name Venkatappa, at present studying art under the drawing master in the Industrial school, at Mysore. He was brought to His Highness's notice some four or five years ago, and His Highness was good enough to provide him with the means of learning English and getting some general education. He is the son of a Palace Chitrigar and shows remarkable artistic talent. He has learnt about as much as he is likely to do in the Mysore school and has recently been given (it is understood) a scholarship of Rs 20 to enable him to proceed to the Bombay or Madras School of Art and prosecute his studies further. I have had some discussion with Mr Travers, who among his many interests includes artistic ones, and he was good enough when in Calcutta to enquire about the teaching in the School of Art there and also saw Mr Tagore, the principal of the Jaipur Dept. You probably know of Mr Tagore by reputation, if not you will find his work on Jaipur with Mr

Havell's new book on Indian painting and sculpture He is a man of remarkable original talent, whose work has now a literally world wide reputation He has founded a school of painting in which correctness of technique is combined with true Indian sentiment and forms of expression His pupils are making names for themselves and one may hope that the result will be a revival of real Indian art and not the production of more or less feeble imitations of Western methods, such as one associates with the pupils of Indian schools of Art generally I have placed all this before His Highness and he considers that it would be very desirable that Venkatappa should have the chance of studying under ~~him~~ Mr. Tagore and of participating in this most admirable revival But in Calcutta a scholarship of Rs 20 will not maintain him and pay his school fees His Highness therefore desires me to say that he will be glad if the scholarship can be raised to Rs 30 If that is done the further arrangements can be made The boy himself is keen to go I have watched his work constantly myself for the last five years and I have the very highest opinion of his abili-

tle I am quite certain that money spent on him will not be thrown away, but will if he is given this chance bring credit to the state in the future He is quite a poor boy and cannot contribute his self to is maintenance while tudying Will you kindly let me know as soon as possible whether the business can be arranged

Yours sincerely,

V. MacConnell
